

# SENSORS: INTRUSION

**RE601 DOOR/WINDOW SENSOR**

- Magnet & internal reed switch operation
- 2 supplemental hardwire zones
- Cover tamper
- 10-15 year battery life

**RE610P INDOOR MOTION SENSOR - PET IMMUNE**

- IR Sensor & signal processing
- Pet immunity up to 80 lbs
- Coverage range of 44' with 90° field of view
- 6-8 year battery life

**RE622 NANOMAX™ DOOR/WINDOW SENSOR**

- Tiny and discreet, blends into any door or window
- Small but powerful, transmits at the full FCC limits, maximizing range
- Support for external contact
- 1-inch magnet gap
- 6+ year battery life

**RE606 TILT SENSOR**

- Monitors any lifting or tilting door
- Triggers at approximately 45 degrees tilt
- Mount vertically in non-alarm position
- Strong, reliable RF signal
- 10-15 year battery life

**RE609 GLASSBREAK SENSOR**

- Identifies the sound of breaking glass 4-25 ft from source
- Support for external contact
- Cost-effective to cover large areas
- 4-6 year battery life

**RE033-16 METALMAX HOUSING FOR NANOMAX**

- Mount in narrow spaces
- Improved RF performance when mounting on metal
- Footprint less than 1/2"
- 16-pack
